## CHILDREN WITH CLEFT CAN ALSO SMILE

Before Surgery

After Surgery

We have great pleasure in informing you that two highly service minded institutions, featured below, have joined hands to offer quality treatment for the children afflicted with cleft lip and palate. The treatment offered to them is

## TOTALLY FREE

Cleft lip and palate is one of the common congenital deformities occurring in the humans. It is estimated that approximately 1 in 800 children are afflicted with this defect.

## DR. JEYASEKHARAN CENTRE FOR CLEFT CARE: (DJCCC)

DJCCC housed at Dr. Jeyasekharan Hospital and Nursing Home, Nagercoil is a state of art cleft centre with a complete team of specialists totally dedicated to the management of cleft children. The core team consists of a maxillofacial surgeon, anesthesiologists, pediatricians, ENT surgeon & speech therapist, all well qualified and trained.

## THE SMILE TRAIN

The SMILE TRAIN, an international children's charity, launched in 1999 and based in USA, is dedicated to helping lakhs of children in the world suffering from CLEFT LIP AND PALATE. The SMILE TRAIN is supported by thousands of individual and private foundations throughout the world, which enables it to fund the surgical interventions of cleft patients at its partner institution.

The SMILE TRAIN supports the cleft lip / palate program at Dr. Jeyasekharan Hospital and Nursing Home, Nagercoil.

After Surgery
